

Founding Creator Meeting & Launch Kit

A practical agenda, decision sheet, and ready-to-post language for the 2026 WatchTok Enthusiast Survey.

Creator Commitment

Recommended defaults are provided so the group can move quickly without reopening the survey design.

DECISION	RECOMMENDED	RATIONALE
Launch date	Anytime after 1pm Eastern September 6 th , 2026	Choose a date when most Founding Creators can post within 48 hours.
Coordinated window	48 hours	Creates a visible launch moment while leaving creators flexibility.
Field period	4 weeks	Long enough for reminders; short enough to maintain urgency.
Response Target	700+ completed	A credible initial target; continue toward a larger sample if momentum remains strong.
Reminder cadence	Two reminders	One near the midpoint and one during the final 72 hours.
Public link	watchtoksurvey.com	Use the clean URL only. Never distribute the Test Mode link.

Creator commitment

- Publish minimum one launch post during the week of September 6th-13th
- Include the exact survey URL and/or approved QR code.
- Use personal language while preserving the neutral research framing.
- Do not share the ?test=1 address or encourage particular answers.
- Send questions, respondent issues, or correction requests to Cris promptly.

POSITIONING This is independent, creator-led community research. Founding Creators help distribute and shape the project; they do not control individual responses or receive respondents' contact information.

Ready-to-Post Creator Copy

Creators have absolute authority to re-phrase or re-word content to your own sensibility.

15-second spoken version

If watches are part of your TikTok life, the 2026 WatchTok Enthusiast Survey wants to hear from you. It is independent, no name is required, and it is designed to build a clearer picture of how our community discovers, evaluates, buys, and enjoys watches. Visit watchtoksurvey.com.

Short post caption

The 2026 WatchTok Enthusiast Survey is now open.

If you discover, discuss, collect, or buy watches through TikTok, add your experience to this independent, creator-led community research.

No name is required. Any optional contact information is stored separately from survey answers.

Creator FAQ & Response Guide

Use these answers in comments, direct messages, and follow-up posts.

Who should take it?

Anyone whose interest in watches intersects with TikTok—including collectors, enthusiasts, researchers, creators, and watch-industry participants answering from their personal experience.

Is an email required?

No. Survey completion does not require an email. Optional contact information may be provided separately after completion.

Is it anonymous?

No name is required for the research response. Optional contact information is stored separately from survey answers.

Can someone take it more than once?

No. Please submit one genuine response per person.

Can someone stop and return?

Yes. Their progress is saved on the same browser and device. They should return using the normal survey URL.

Why does the survey ask about industry relationships?

Those answers provide context and do not automatically disqualify anyone.

What if someone encounters an error?

Ask them to retry from the same browser and device. If it persists, send Cris the device, browser, question number, and a screenshot—never their individual answers.

Can we share the Test Mode URL?

No. The ?test=1 URL is only for internal testing. Public posts must use <https://watchtoksurvey.com/>.

How do I use the QR code on the same phone?

Save the QR image to Photos, open it there, then long-press it. In a social post, also provide the direct link whenever the platform allows.

When will results be available?

The group will set the reporting schedule after agreeing on the launch date and field period.

Should I post to other channels?

No. This is a survey about WatchTok/TikTok. We are trying to measure this channel specifically.

Official Links & Creative Assets

Use these exact public resources. Keep the generic survey link free of tracking parameters.
